

MEMORANDUM

EPA Region 5 Records Ctr.

362186

DATE: August 9, 1982
TO: Brad Benning, Northern Region
FROM: Mark Haney *MH*
SUBJECT: 08905501 -- Kane County -- Montgomery/Philips

In early 1980, there was a groundwater study done by our drill rig unit on this site. When the groundwater unit was disbanded, the data on Montgomery/Philips was sent to Ken Bardo in the Rockford region (815/987-7404) to do an evaluation and write the report.

Ken was contacted, and he advised that it would be quite some time before he could begin work on the report. I would recommend that you contact him for any information concerning groundwater quality at the Montgomery/Philips site. The Compliance Unit currently has nothing pending concerning this site.
